Zebra

Zebra Foal
Bronze
Edition of 6
14 cm high

Absolutely enchanting,
Naturally
Idiosyncratic,
Tactile
Animals;

Masterfully
Animated,
Never
Dull,
Laden with character!

Anita Mandl began sculpting more than forty years ago. She exhibits extensively throughout the British Isles and is a Royal West of England Academician and a Fellow of The Royal Society of British Sculptors.

A deep understanding of the natural world is clearly reflected in Anita's expressive and intuitive animal forms. All her works start life as carvings, most of which are then cast into bronze. It is therefore no surprise that these patinated bronzes often evoke the qualities of stone or marble in their subtle coloration.

Catalogue Design: Gallery Pangolin
Casting: Pangolin Editions
Photography: Steve Russell
Printing: Healeys Printers
