

## CLAN TOTEMS

Jon Buck

Working with the Rwenzori Founders team, established British sculptor Jon Buck has researched and designed a series of over 30 Clan Totems based on local traditions and tribal symbols. These include familiar Ugandan animals such as the lion, leopard and elephant as well as less-often seen creatures like the pangolin. All have been cast into bronze by Rwenzori Founders and a selection is always on show in the on-site gallery.
